FinanceTraining.ca
Exams Made Easy

Why FinanceTraining.ca?

There is no shortcut to success. Our goal is to minimize the waste studies students do to grasp a concept e.g. going over the same stuff again and again or memorizing the concepts.

Both first-time candidates and individuals repeating the exam can significantly boost their preparation by adding this comprehensive prep-course to their study plan.

Unique Strategies

Our experts put more emphasis on what's relevant for the exam. At the same time our experienced instructors will make sure you understand the concepts and apply those in your day-to-day life.

Concepts!

Level 1 CFA® exam questions are increasingly focusing on concepts. So, memorizing won't help anymore! Learn more about this trend from our top quality instructors. These experienced instructors are CFA Charterholders and industry experts who also teach at local universities. They will use real life examples to make sure you understand tough concepts so that you can beat any exam question with full confidence.

Personalized Attention

Our experts are available 24/7 to answer your questions and motivate you at every step. We are the only prep provider that provides personalized training to ensure an engaging learning environment. Personalized training makes sure that we understand the student well and modify the teaching method according to the student's need.

Small Groups

Classes are divided into small groups and students are made to work together after class so there is a peer pressure. From our experience, we found that peer pressure along with specialized training is the best combination for passing the exams.
